

WatchTVEverywhere

WatchTVEverywhere FAQs

WatchTVEverywhere streams some of your favorite channels and programming to your tablet, smartphones, your laptop and other devices from anywhere you can receive an internet signal; inside your house, at the office, hotel, airport, vacation home and everywhere. WatchTVEverywhere has a lot of different definitions. For us, it is TV programs that are available on something other than a TV set.

How is WatchTVEverywhere different from something like Hulu or Netflix?

There are several differences. WatchTVEverywhere:

- Is FREE. There is no extra charge to use it. You only need to have a subscription to the network you want to watch.
- Includes live TV. For example, WatchTVEverywhere includes live game coverage on the NFL Network or WatchESPN. Hulu and Netflix only provide previously recorded shows.
- Has full episodes of current TV shows within days of their premiere. You can also catch up on the entire season or previous seasons of your favorite shows.

How much does it cost?

Nothing. Currently there is NO EXTRA cost for WatchTVEverywhere so feel free to explore. There is nothing available at this site that will result in an extra cost to you (except overage charges from your cellular carrier). You only need to be a subscriber to the TV network. This may change over time depending on the requirements made by the individual TV networks.

Where can I WatchTVEverywhere?

The answer is just about Everywhere. WatchTVEverywhere works anywhere you can receive an internet signal; inside your house, at the office, shopping mall, hotel, airport, vacation home, etc. Wired connections and in-home wi-fi will provide the best quality. The quality of the WatchTVEverywhere signals while roaming (airports, stores, hotels, etc.) will vary depending on the strength of the signal. Be extra careful when you travel, especially outside of the US, Data roaming charges may apply to networks that allow access outside the US and they can be very expensive.

What programs are available?

Different networks make different programs available at different times. Each TV network makes their own decisions about what to make available on WatchTVEverywhere. For example, the live feed of CNN is available. However, the live feed of Nickelodeon is not. Instead, Nickelodeon offers full episodes of their popular programs.

Why aren't all programs available?

A TV Network doesn't necessarily own all of the rights to all the programs they transmit. A TV network may have the right to transmit a movie, but only to TV sets, not on WatchTVEverywhere. So again, it depends on the specific TV network.

Will other networks become available?

Yes. We are working with many different program providers to expand the number of networks and the number of programs available on WatchTVEverywhere. Registered users are presented with a complete list of all the networks available to them. You will see them automatically when they are added.

Which WatchTVEverywhere programs can I watch?

Once you are registered, you can watch any WatchTVEverywhere program as long as you are a subscriber to that network. For example, you must be an A&E subscriber to watch A&E's WatchTVEverywhere programs on the A&E network.

How do I use WatchTVEverywhere?

It is easy to start using WatchTVEverywhere. The first step is registration.

- Select SkitterTV as your TV provider from the drop-down menu and click on the Submit button.
- Click on Register. You will need 2 pieces of information to register:
- Your account number:

- The correct spelling of the last name on the account:

- You will be asked to provide an email address. This will be your username. This can be any valid email address.
- Provide a password.
- Select a password reset question.
- Supply the answer to the password reset question.
- Click on register
- Now, check the email address you just provided. You will find an email message with your WatchTVEverywhere activation link. Click on the link to complete the process.
- You are done and can begin to enjoy WatchTVEverywhere.

It is important that you keep your username and password confidential. Use of your credentials by others will result in the loss of WatchTVEverywhere privileges.
